How to Play video files from USB on Decoder

Description: You can learn how to play a video film at decoder by USB drive

Note: Need to be noticed, decoder only support Tiandy mp4 format video file, if you have others format video file need to be transformed by our video tool, and the video backup by our NVR can be played directly
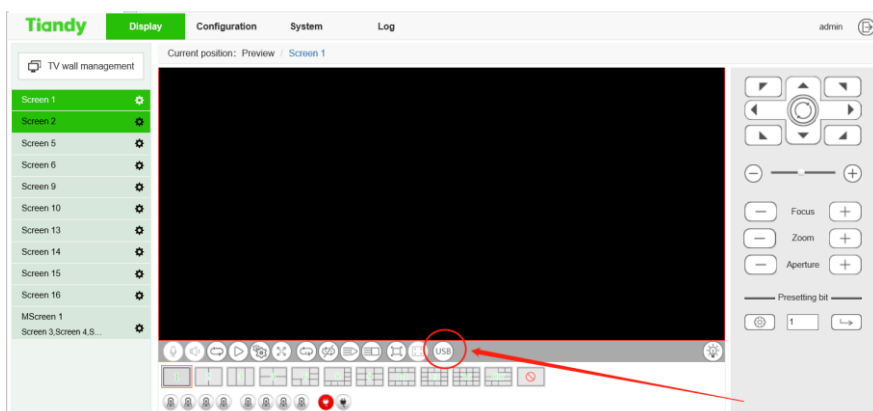

Step 1 Prepare the SDV or MP4 files exported from NVR.
Sept 2 Put this video file to USB drive and connect the USB drive to Decoder
Sept 3 Login the decoder web menu; select the Screen that you want to display the video file

Sept 4 Click the USB icon

Sept 5Add the video file to the Play list, then click play. Then you can see the video on the Screen.
